RC No. 445/A/ET/TSSCERT/2016

Date 9th January 2017

To

The State Head
The Save the Children
Hyderabad

Dear Sir/Madam,

We would like to appreciate your valuable contribution towards modelling ICT project "Integration of ICT with Curriculum" in Karimnagar and Warangal districts of Telangana State. The project is really impacted very much in the field for establishing ICT teaching learning environment with Teacher made digital contents in order to enhance quality education in government primary schools. It is found that, Teachers are easily explaining complex instructions; they are able to create interactive classes and make the lessons more enjoyable. It is found that, increased the student attendance and DIET(s) have strengthened for taking up the concept for pre-service and in-service teachers training with an establishment of DIGITAL HUB at Karimnagar and Warangal.

Now Teachers are pride of developing the content and its ownership are the highlight and shift from a teachers dominated classroom led to more child's participation and activities. Overall the project is identified as an innovation in our states and:

- Incorporated the ICT curriculum in D.Ed. course across the state from Academic Year 2015-16 (First year ICT theory & Application in 2nd year as per the D.Ed. curriculum)
- Initiated Digital Class rooms in 3352 schools on 16th November 2016

We appreciate Save the Children's efforts for introducing ICT/Digital Class rooms and RICOH's technical/hardware support for piloting the project in our Government schools.

We are hoping that our collaboration may help in achieving our quality targets of school education in Telangana. We acknowledge the efforts of Save the Children for making a success of this project.

Looking forward for your support always!!
